PART I  What is the material and what do I need to know in an emergency?

1. PRODUCT IDENTIFICATION

TRADE NAME (AS LABELED): Dynalene Solar Glycol - XT
CHEMICAL NAME/CLASS: Heat Transfer Fluids
SYNONYMS: Inhibited Glycol
DISTRIBUTOR'S NAME: Dynalene Heat Transfer Fluids
ADDRESS: 5250 West Coplay Road
           Whitehall, PA 18052
EMERGENCY PHONE: 1-800-424-9300 (CHEMTREC)
BUSINESS PHONE: 1-610-262-9686
DATE OF PREPARATION: June 27, 2007
DATE OF REVISION: October 27, 2009

NE = Not Established  C = Ceiling Level  See Section 16 for Definitions of Terms Used.
NOTE: All WHMIS required information is included. It is located in appropriate sections based on the ANSI Z400.1-1993 format.

3. HAZARD IDENTIFICATION

SYMPTOMS OF OVER-EXPOSURE BY ROUTE OF EXPOSURE:
The most significant routes of exposure to this product are by inhalation of the vapors and contact with the skin and eyes.

CONTACT WITH SKIN or EYES
Based on animal data, skin contact with pure 1,3-propanediol may cause dermatitis with itching or rash. No adverse effects are expected from incidental eye contact with 1,3-propanediol.

INGESTION
Based on animal data, ingestion of 1,3-propanediol may cause liver abnormalities.

CARCINOGENICITY INFORMATION
None of the components present in this material at concentrations equal to or greater than 0.1% are listed by IARC, NTP, OSHA or ACGIH as a carcinogen.

HMIS Rating
Health 0
PART II  What should I do if a hazardous situation occurs?

4. FIRST-AID MEASURES

SKIN EXPOSURE
Flush skin with water after contact. Wash contaminated clothing before reuse.

EYE EXPOSURE
In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Call a physician.

INHALATION
If inhaled remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call physician.

INGESTION
If swallowed, do not induce vomiting. Immediately give 2 glasses of water. Never give anything by mouth to an unconscious person. Call physician.

Notes to Physician: No antidote or specific regimens known. Use supportive measures as needed.

5. FIRE-FIGHTING MEASURES

FLASH POINT, °C (method):
None.

FIRE EXTINGUISHING MATERIALS:
Water Spray: YES (cooling only)  Carbon Dioxide: YES  Foam: YES
Dry Chemical: YES  Other: Any "ABC" Class  Halon: YES

SPECIAL FIRE-FIGHTING PROCEDURES:
Evacuate personnel to safe area. Keep personnel removed and upwind of fire. Wear self-contained breathing apparatus. Avoid breathing vapor. Use water spray to knock down vapor.

NFPA Rating
Health  0
Flammability  0
Reactivity  0

6. ACCIDENTAL RELEASE MEASURES

SPILL AND LEAK RESPONSE:
Uncontrolled releases should be responded to by trained personnel using pre-planned procedures. Proper protective equipment should be used. In case of an uncontrolled release, clear the affected area, protect people, and respond with trained personnel.

SMALL SPILL:
Cover with absorbent material (floor absorbent, vermiculite, etc.) Soak up spill and place material into a drum.

LARGE SPILL:
Personnel involved with large releases should wear protective equipment. Stop spill at source, dike the area surrounding the spill to prevent further exposure. Prevent material from entering sewer system. If necessary, absorbents such as vermiculite, clay floor absorbent may be used on spill and shoveled into drums.

PART III  How can I prevent hazardous situations from occurring?

7. HANDLING AND STORAGE

STORAGE AND HANDLING PRACTICES:
Avoid breathing vapor or mist. Avoid contact with eyes, skin or clothing. Wash thoroughly after handling. Avoid prolonged or repeated exposure. Keep container tightly closed. Keep away from heat, sparks and flames. Store in a cool, dry place.

8. EXPOSURE CONTROLS - PERSONAL PROTECTION

VENTILATION AND ENGINEERING CONTROLS
Keep container tightly closed. Mechanical exhaust required. Keep away from heat and open flames. Store in a cool dry place.

**RESPIRATORY PROTECTION:**
Where there is a potential for airborne exposure, wear appropriate NIOSH approved respiratory protection.

**EYE PROTECTION:**
Wear coverall chemical splash goggles or safety glasses.

**HAND/BODY PROTECTION:**
Where there is potential for skin contact have available, and wear as appropriate, impervious gloves, apron, pants, and jacket.

**PERSONAL PROTECTIVE EQUIPMENT LEVEL:** D

---

**9. PHYSICAL AND CHEMICAL PROPERTIES**

**MELTING POINT**
-27°C (-16.6°F)

**EVAPORATION RATE**
<1 (Butyl Acetate=1.0)

**SPECIFIC GRAVITY (water = 1)**
1.046

**SOLUBILITY IN WATER**
Soluble

**VAPOR PRESSURE**
0.08 mm Hg @ 20 °C(68°F)

**BOILING POINT:**
>100°C (212°F)

**pH:**
8.8

**APPEARANCE AND COLOR:**
This product is a colorless, odorless, syrupy liquid with a faint, chemical odor. Alternate colors are available, pending customer preferences.

---

**10. STABILITY AND REACTIVITY**

**STABILITY**
Stable at normal temperatures and storage conditions

**DECOMPOSITION PRODUCTS:**
No decomposition under normal operating conditions.

**MATERIALS WITH WHICH SUBSTANCE IS INCOMPATIBLE**
None reasonably foreseeable

**HAZARDOUS POLYMERIZATION**
No polymerization under normal operating conditions.

---

**PART IV**

Is there any other useful information about this material?

---

**11. TOXICOLOGICAL INFORMATION**

**TOXICITY DATA**
Additional toxicology information for components listed in Section 2 (Composition and Information on Ingredients) is provided below.

Animal Data for 1,3-propanediol:
- Oral LD50: 15,000 mg/kg in rays
- Dermal LD50: > 20,000 mg/kg in rabbits
- Inhalation 4 hour ALC: > 5.0 mg/L in rats

**SUSPECTED CANCER AGENT**
The ingredients of this product are not listed on the following lists: OSHA Z list, NTP, IARC or CAL/OSHA, and therefore are not considered to be, nor suspected to be, cancer-causing agents by these agencies.
IRRITANCY OF PRODUCT
This product is not an eye irritant, is a slight skin irritant, and is not a skin sensitizer.

REPRODUCTIVE TOXICITY INFORMATION
Animal data shows that 1,3-propanediol is not uniquely toxic to the fetus. Information about reproductive toxicity potential is limited to information from the oral repeated dose study in rats where no adverse effect to sperm and reproductive organs were observed. 1,3-propanediol is not likely to be a genetic toxin. In vitro, it was not mutagenic in bacterial or mammalian cells. 1,3-propanediol was also negative in the vivo mouse micronucleus assay.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE
Repeated exposure of rats by oral gavage caused no toxicologically important changes in clinical pathology, pathology (including sperm analysis), or in-life measurements. The NOEL for this study was 1000 mg/kg/day, the highest dose tested. These results suggest that changes to testicular DNA and liver substructure observed in earlier studies are unlikely to cause adverse effects.

INHALATION EXPOSURE
Repeated inhalation exposure in rats caused no toxicologically important changes in clinical pathology, or in-life measurements. The NOEL was 1800mg/m³.

BIOLOGICAL EXPOSURE INDICES
Currently, there are no Biological Indices (BEIs) associated with the components of this product.

12. ECOLOGICAL INFORMATION
ALL WORK PRACTICES MUST BE AIMED AT ELIMINATING ENVIRONMENTAL CONTAMINATION.

ENVIRONMENTAL STABILITY
If released into an uncontrolled environment, components of this product can be microbially or chemically degraded into other inorganic and organic compounds.

AQUATIC TOXICITY
1,3-propanediol: low toxicity
40 hour EC50 - Daphnia magna: 7417 mg/L
72 hour EC50 - algae: 1600 mg/L
96 hour LC50 - fathead minnow: >9720 mg/L

13. DISPOSAL CONSIDERATIONS
PREPARING WASTES FOR DISPOSAL
Treatment, storage, transportation, and disposal must be in accordance with applicable Federal, State/Provincial, and Local regulations.

EPA WASTE NUMBER
Not applicable.

14. TRANSPORTATION INFORMATION
SHIPPING INFORMATION
Not regulated as a hazardous material by DOT, IMO, or IATA

15. REGULATORY INFORMATION
U.S. FEDERAL REGULATIONS
TSCA INVENTORY STATUS
The components of this product are listed on the TSCA Inventory.
