Product Warranty & RMA Policy

1 Warranty Policy

The Solectria Renewables Warranty Policy is stated below.

Solectria Renewables Warranty Coverage:

Solectria Renewables Limited Warranties are provided by Solectria Renewables, LLC. ("Solectria Renewables") and cover defects in workmanship and materials.

Duration of a Solectria Renewables Warranty Period:

The warranty period is 120 months from the date of purchase of the PVI3000/4000/5000/5300 by the end user or 124 months after the delivery date from Solectria Renewables to installer, dealer or distributor (merchant) whichever is shorter.

If Solectria Renewables repairs or replaces a product, its warranty continues for the remaining portion of the original Warranty Period or 90 days from the date of the return shipment to the customer, whichever is greater.

All warranties are null and void if full payment for products and associated shipping are not received in full and in a timely manner by Solectria Renewables.

Please contact Solectria Renewables Customer Service for further details on other products.

What will Solectria Renewables do?

Solectria Renewables will, at its option, repair or replace the defective product free of charge, provided that you notify Solectria Renewables of the product defect within the Warranty Period for your product, and provided that Solectria Renewables, through inspection, establishes the existence of such a defect and that it is covered by the Limited Warranty.

Solectria Renewables will, at its option, use new and/or reconditioned parts in performing warranty repair and building replacement products. Solectria Renewables reserves the right to use parts or products of original or improved design in the repair or replacement. All replaced products and all parts removed from repaired products become the property of Solectria Renewables.

Solectria Renewables will attempt to repair the unit within a reasonable time period (there is no reimbursement for lost energy production.)

Solectria Renewables covers both parts and labor necessary to repair the product, and return shipment to the customer via a Solectria Renewables-selected non-expedited surface freight within the contiguous United States and Canada. Alaska and Hawaii and the Rest of The World are excluded. Contact Solectria Renewables customer service for details on freight policy for return shipments outside of the contiguous United States and Canada.

Obtaining Service:

If your product requires troubleshooting or warranty service, contact your merchant. If you are unable to contact your merchant, or the merchant is unable to provide service, contact Solectria Renewables directly at the number listed on the website in the customer service section for your product manual.

Direct returns may be performed according to the Solectria Renewables Return Material Authorization Policy.

In any warranty claim, dated proof of purchase must accompany the product and the product must not have been disassembled or modified without prior written authorization by Solectria Renewables.

Proof of purchase may be in any one of the following forms:

- The dated purchase receipt from the original purchase of the product at point of sale to the end user, or
- The dated merchant invoice or purchase receipt showing original equipment manufacturer (OEM) status, or
- The dated invoice or purchase receipt showing the product exchanged under warranty.

Replacement unit: Solectria Renewables will send a replacement unit if it is determined that the customer needs a replacement (shipping cost covered by Solectria Renewables). The failed unit must be returned in the same packaging that the replacement unit was sent in.

Returning the failed unit: The failed unit **MUST** be returned to Solectria Renewables; it should **NOT** be opened or altered. The cost of shipping the failed unit back to Solectria Renewables is also covered by Solectria Renewables via a prepaid UPS barcode label that comes in the box with the replacement unit. After the failed unit is packed and the box is sealed up, the UPS bar-code label should be attached and the box should be given a UPS driver or deposited at a UPS store. Please contact Solectria Renewables' customer service if a return UPS shipping label is not inside the box with the replacement unit. If the failed unit is not received by Solectria Renewables within 30 days, the customer will be required to pay for the replacement unit.

Shipping: Solectria covers the cost of UPS ground shipment between the customer and Solectria Renewables for the replacement and failed units (as described above).

Reimbursement for replacing a unit: A qualified installer is able to receive reimbursement of \$100 for replacing an inverter (PVI 1800-5300) if Solectria Renewables determines that the inverter failed through a defect in workmanship or materials and the failure was not the result of incorrect use or fault of installer.
